**DR. WARREN JACOBY REMAINS TRUE TO THE SCIENCE, ART AND PHILOSOPHY OF CHIROPRACTIC CARE.** "Adjustments are the central core of what I do." He is trained in several techniques all designed to eliminate or reduce discomfort and pain, and improve overall body function.

He educates patients about subluxation, a misalignment of the vertebrae viewed as the cause of many health issues. Correcting a subluxation, through spinal adjustments, can relieve spasms and pain and improve range of motion. "The result is better overall health."

Dr. Warren C. Jacoby, DC

Dr. Jacoby takes great pride in helping people and forming strong bonds with patients. "It's been very rewarding seeing my patients achieve a higher level of health through chiropractic care."

Dr. Jacoby relocated his practice to Waldwick after practicing in Ridgewood for more than 20 years. He is affiliated with Total Health Associates.

# Bergen's Top Chiropractors

(201) Magazine is proud to present the results of the fourth annual Bergen's Top Chiropractors survey, conducted by Professional Research Services (PRS) of Troy, Mich. PRS contacted each licensed and active chiropractor within Bergen County. PRS asked those chiropractors in an exclusive peer-review online survey which chiropractors they would recommend, other than themselves, across the county. Each chiropractor was allowed to recommend up to three colleagues. Once the ballots were complete, each nominee was carefully evaluated on the basis of the survey results, the legitimacy of their license and their current standing with the State Board of Chiropractic Examiners. Chiropractors who received the highest number of votes in chiropractic medicine are reflected in the following Top Chiropractor list for 2018. (Note: The opinions are not those of (201), North Jersey Media Group or any of its employees.)

This list is a resource for anyone seeking professional chiropractic care, but by no means does it fully represent all of the fine chiropractors in Bergen. The chiropractors selected reflect the confidential opinions of the survey participants. Moreover, voters and honorees chosen in the voting process were not required to advertise.
